

BARAVEN Interior Doors: Standard Options

Typical options. Every order is made to the specification you approve before production.

01 Door types

Flush, Shaker and panel, pivot, hidden flush-to-wall, pocket, barn, bi-fold, glass and oversized doors. Any style can be made as any of these types. **Or send a drawing or reference photo.**

02 Sizes

Heights	80, 84 and 96 in.
Widths	24, 28, 30, 32 and 36 in.
Thickness	1 3/8 in. standard; 1 3/4 in. for doors over 36 in. wide or 90 in. tall
Other sizes	Taller, wider or thicker, made to the sizes on your drawings

03 Construction

Core	Hollow core or solid core
Face	Natural wood veneer (species on request), UV-cured paint, paint or laminate
Veneer edges	Our factory's patented panel-bending technology: the veneer wraps the edge, with no separate edge strip
Combinations	Any face over any core, or to your specification

04 Frames and casing

Frame and jamb	Plywood
Jamb width	4 9/16 in. (2×4 wall with 1/2 in. drywall) 5 1/2 in. (stucco or thick drywall) 6 9/16 in. (2×6 wall or block)
Casing	L-casing, adjustable to the wall
Other walls	Jamb made to your wall thickness

05 Hardware

Supplied	The hinges, lock and handle you specify, such as concealed hinges and magnetic locks
Or pre-bored	For hardware you source yourself
Handing	Left or right hand, in-swing or out-swing

06 How it ships

Slab	Door only
Door with frame	Door and frame, knockdown
Full package	Door, frame, casing and hardware preparation, knockdown
Pre-hung	Hung in its frame at our factory, one box per opening (extra cost)

07 Order and delivery

Lead time	Custom door orders typically take 12–14 weeks from the start of production to delivery at your site.
Production starts	After your signed final specification and 50% deposit
Delivery basis	FOB factory port, CIF U.S. port, or delivered to your site in the continental U.S.
Phasing	By building or floor, with dates set in your quote
Before shipping	Checked at our factory, with photos before shipment

08 Approval and samples

Approval	You approve the final specification before production
Shop drawings	Ask for a sample shop drawing from a past project
Samples	On request, including veneer jamb and L-casing samples; you cover the shipping
Display doors	At our La Mirada, California warehouse: visit by appointment, or ask for a video call

09 Fire-rated openings

Yes, by project. For openings that need a rating, we source labeled doors from partner factories that already supply the U.S. market. Tell us which openings need a rating and what your project requires.

To quote: send your door schedule or drawings, quantities, finish and the date you need the doors on site. We reply by email within 1–2 business days.
Limited 2-year warranty: see our Terms at baraven.com/terms.
